Overview

Mining and Minerals are served within the Field Law Energy + Environment Group which provides strategic, client-focused services to a wide range of public and private clients. Field's clients span the entire energy spectrum, including exploration and production companies, pipeline owners and shippers, energy marketers, power companies, renewable and alternative energy providers, utilities and oilfield service and supply companies. We also advise governing bodies.

Mining corporations seeking investment opportunities in Alberta and Northern Canada have come to Field Law to provides strategic guidance in arranging tailored corporate structures in the negotiation and implementation of intricate agreements, thus allowing for the greatest organizational potential of firm natural resources.
