Overview

Kara Isabelle has worked as a paralegal since 1997 and currently works in the Edmonton office with a focus on litigation.

Kara has become an integral part of the team serving primarily the Litigation and Professional Regulatory practice groups. She is eager to assist with all that is required regarding the collection and disclosure of records, and the preparation of materials for questionings, expert reviews, hearings and trials.

Kara's skill set utilizes eDiscovery tools and processes, allowing for electronic document management, and facilitating a more efficient review by the legal team. Kara also works on anything relating to appeals, which has resulted in an easy transition into the world of electronic filing at the Court of Appeal.

Value to Clients

Kara rolls up her sleeves and gets the job done, which makes her an asset to the firm and its clients.

Outside the Office

Kara loves dogs and looks forward to her daily walks with her little guy. She also comes from a very competitive background, so in her spare time you can find her outdoors, participating in or watching a variety of sporting events, or having a game night with her family and friends.
