### Overview

Prita Madan is a Patent Agent based in Field Law's Calgary Office handling the drafting and prosecution of patent applications.

Prita's background in engineering (Electronics) and her analytical nature and communication skills allow her to accurately describe cutting edge technologies in patent applications. She works extensively with clients in the energy, electric power and medical device technology areas on patent applications related to electrical circuits, semiconductors, signal processing, integrated circuits, server / network environments and beyond. In the medical device technology area, she has worked on microelectronic implantable devices for managing pain.

She also assists clients in obtaining, maintaining, and defending patent rights internationally through a broad network of Foreign Associates.

Prita also has extensive experience in the drafting and prosecution of Industrial Design applications.

Prior to becoming a Registered Patent Agent in Canada, Prita was a Registered Patent Agent in India.
