Overview

Saul has more than a decade of experience in working with clients to harmonize business objectives with tax and other planning considerations.

Saul has counselled clients regarding US tax law pertaining to cross border business expansion, private equity transactions, estate and succession planning and related matters. Saul's experience includes:

- Providing advice to Canadian investors with respect to tax efficient investment in US real estate.
- Providing advice to US and Canadian businesses seeking tax efficient financing methods.
- Assisting with cross border estate planning for families with members and assets in multiple jurisdictions.

Value to Clients

Whether advising private equity funds, multi-national businesses, families or other clients, Saul's focus is always on "what is the client trying to accomplish" – rather than "what legal options are available." This approach allows clients to be confident that the tax "tail" won't wag the business "dog."
