Overview

Shannon Fleury has been working at Field Law since August 2005. Shannon started out as a practicum student in the corporate records department and was offered and accepted a full time position as a legal assistant for the wills + estates and real estate department.

As a legal assistant, Shannon gained experience in residential re-sale, refinance and builder new construction conveyancing. That experience led to commercial real estate assisting with purchase, sale and financing of commercial properties.

In 2014 Shannon became a real estate paralegal, working more independently for the business group, which provides a more diverse workload including residential development financing, large commercial real estate, and commercial lending. Most recently she began working with the Field Law Yellowknife office assisting with Northern Canada real estate.

Value to Clients

Shannon's goal is to be consistent and loyal to her clients. She appreciates all the relationships she has developed with clients over the years. Shannon wants to ensure they feel comfortable and secure to contact her and know she will be there to assist.

Outside the Office

Shannon enjoys being active, playing sports and keeping up to her two young sons. From April to October you can find her and her family out camping as much as possible. Shannon also stays busy as an executive committee member on her local community board which she takes great pride in. She wants to be part of a community where her sons can grow strong roots and appreciate their environment.
